

Presentation of Achieve Products & Testing Service Programs for Detection of COVID-19

Achieve Health Management Presenters:

Charles Parks, Chief Executive Officer

James Bailey, President

Jeff Williams, Chief Operating Officer

Thank You!

To date over 700 school districts and private schools served in Texas

Contracted Supplier of COVID Testing Services for the Texas Department of State Health Services

Achieve Health Management is a contracted supplier of as needed PCR COVID testing and rapid Antigen test kits for the Texas Department of State Health Services administered for Texas school districts by the Texas Education Agency

<https://tea.texas.gov/texas-schools/health-safety-discipline/covid/covid-19-support-public-health-orders>

Achieve Health Management provides comprehensive solutions for the range of COVID-19 testing needs

Testing Products and Services Available

PCR Testing Services including:

- Anterior Nares Specimen collection materials
- FedEx Priority overnight shipping labels
- Contracted CLIA-laboratory network for real-time PCR
- Personal protective equipment
- Administrative equipment

Rapid Antigen test kits for point-of-care

Staffing for test administration

Achieve Health Management provides comprehensive solutions for the range of COVID-19 testing needs

Testing Services Available

Collection kit shipment to facilities (Anterior nares swabs and Saliva)

Pre-paid shipping labels provided

Contracted medical staff to collect specimens (can be arranged by individual facility if needed)

Online registration portal with results reported via HIPAA-compliant portal, or secure text, or secure email within 48 hours of specimen receipt

CDC Simple Reports integration

PCR Testing Preparation, Testing Day, and Reporting

1. Conduct joint kick-off meeting to establish testing objectives, staffing requirements and volume expectations
2. School will be responsible for providing space and other needs for test sites
3. Achieve will provide specimen collection materials, PPE and shipping labels at testing locations
4. Achieve will provide medically trained and qualified staff to oversee the specimen collection process along with administrative support personnel
5. Achieve will provide an online testing registration portal and access to the laboratory test results portal
6. Testing and results reporting will be completed within 48 hours (business days only) within receipt of packaged samples
7. Test results will be provided to test recipients via SMS text and/or secure email
8. Results reporting can integrate with school SIS and staff directory services
9. Results will be reported to State, and Local health authorities, as mandated

PCR Testing Process Examples

1. On-Site with Achieve clinical labor
2. Drive-Through with Achieve clinical labor
3. PCR specimen collection kits and rapid Antigen kits delivery only

Comprehensive School PCR Testing Management

Streamline School Staff and Student Testing Management with Fully SIS/HR/Test Lab System Integration

Testing Schedule Management

On-Demand Testing Schedule, Surveillance Testing, Diagnose Testing, and Screening Schedule Management are based on school testing strategies and contact tracing results.

Testing Consent Management

Collect student testing consent from guardians through the Digital Survey Tool to help schools manage auto-testing approval for On-Demand Testing Schedule.

Testing Result Management

Manage students and staff test results from both testing labs and personal upload via the CrisisGo app.

Testing Data Dashboard

Provide an overall view of the Testing Schedule and participants, with the results accessible to the school nurse and school/district administrators.

New test administration reporting system provides easier reporting and more visibility for administrators and staff/parents/guardians

SimpleReport is our new reporting tool that meets all requirements of Texas DSHS and the TEA

One simple tool to manage individual test record keeping and to report a count of all tests performed

Ability to upload student/staff data for easy patient management (optional)

Ability to allow staff/student guardians to pre-register ahead of testing

Ability to manually enter staff/students on a test by test basis
