Jeff Williams, Chief Operating Officer

Thank You!

To date, 700+
school districts
and private
schools served
in Texas

Achieve Health Management is a contracted supplier of as needed PCR COVID testing and rapid Antigen test kits for the Texas Department of State Health Services administered for Texas school districts by the Texas Education Agency

Achieve Health Management provides comprehensive solutions for the range of COVID-19 testing needs

Testing Products Available

Guaranteed supply of GeneFinder™ COVID-19 Plus RealAmp Tests
- FDA EUA

PCR collection kit through contracted CLIA-laboratory network
for real-time PCR

Rapid Antigen testing (school-administered or AHM
administered)

Testing Services Available

Full-service PCR testing including:

- Pre-paid shipping labels provided
- Contracted medical staff to collect specimens with PPE and administrative equipment (can be arranged by individual facility if needed)
- Online registration portal with results reported via HIPAA-compliant portal, or secure text, or secure email within 48 hours of specimen receipt

Online reporting portal for rapid antigen testing

Collection kit shipment to facilities (Anterior nares swabs)

PCR Testing Preparation, Testing Day, and Reporting

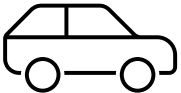

1. Conduct joint kick-off meeting to establish testing objectives, staffing requirements and volume expectations
2. School will be responsible for providing space and other needs for test sites
3. Achieve will provide specimen collection materials, PPE and shipping labels at testing locations
4. Achieve will provide an online testing registration portal and access to the laboratory test results portal
5. Testing and results reporting will be completed within 48 hours (business days only) within receipt of packaged samples
6. Test results will be provided to test recipients via SMS text and secure email
7. Results reporting can integrate with school SIS and staff directory services
8. Results will be reported to State, and Local health authorities, as mandated
9. If requested, Achieve can also provide medically trained staff to oversee the specimen collection process along with administrative support personnel

PCR and Rapid Antigen Testing Processes

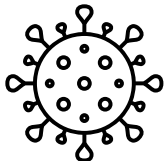

On-Site with Achieve clinical labor

Drive-Through with Achieve clinical labor

PCR specimen collection kits and rapid Antigen kits* for delivery only

**CLIA waiver required- reach out to us for assistance*

New rapid Antigen test reporting system

CDC SimpleReport is our new reporting tool that meets all requirements of Texas DSHS and the TEA

- Provides easier reporting and more visibility for administrators and staff/parents/guardians
- One simple tool to manage individual test record-keeping and to report a count of all tests performed

The screenshot shows the 'SimpleReport' interface for 'Achieve Health Management'. The navigation bar includes 'Dashboard', 'Conduct tests' (highlighted), 'Results', and 'People'. A 'Test ISD' dropdown menu is visible. Below the navigation is a search bar with the placeholder text 'Search for a person to start their test'. The main content area displays a form for 'Williams, Jeff', with a date of birth of '01/24' and a time of '15:00'. The 'Test questionnaire' section shows 'COMPLETED' and 'Current date/time' selected. The 'Device' dropdown is set to 'GenBody COVID-19 Test' and the 'Swab type' dropdown is empty. The 'SARS-CoV-2 results' section has radio buttons for 'Positive (+)', 'Negative (-)', and 'Inconclusive'. A 'Submit' button is at the bottom right of the form.

SimpleReport features

SimpleReport has a lot of great features, including:

- Student/staff data upload for easy patient management (optional)
- Preregistration for testing
- Ability to manually enter staff/students on a test-by-test basis as needed
- Option to text/email results

Test results Showing 1-2 of 2 [Download results](#) [Clear filters](#)

Search by name Date range (start) Date range (end) Test result Role Testing facility

Person	Test date	COVID-19	Test device	Submitted by	Actions
Williams, Jeff DOB: 01/24,	06/14/2022 12:15pm	Negative	GenBody COVID-19 Test (Antigen)	Williams, Jeff	⋮
Williams, Jeff DOB: 01/24,	05/18/2022 11:00am	Inconclusive	GenBody COVID-19 Test (Antigen)	Williams, Jeff	⋮
